The facility of casting votes by a member using remote e-voting as well as the e-voting system on the date of the AGM will be provided by CDSL.

A person whose name is recorded in the Register of Members as on the cut-off date only shall be entitled to avail the facility of remote e-voting.

INSTRUCTION FOR REMOTE E-VOTING :

However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level. Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders. In order to increase the efficiency of the voting

process, pursuant to a public consultation, it has been decided to enable e-voting to all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

- (ii) The remote e-voting period begins on Friday, 25th September, 2026 at 9:00 A.M. (IST) and ends on Sunday, 27th September, 2026 at 5:00 p.m.(IST). During this period shareholders' of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date (record date) of i.e. Monday, 21st September, 2026 may cast their vote electronically. Once the vote on a resolution is cast by the member, the member cannot modify it subsequently.
- (iii) Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.
- (iv) In terms of SEBI circular no. SEBI/HO/CFD /CMD/CIR/P/2020/242 dated December 9, 2020 on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. MANAGEMENT DISCUSSION AND ANALYSIS REPORT

The Board of Directors is pleased to present the Management Discussion and Analysis Report for the Financial Year ended 31st March, 2026. The Report provides an overview of the global and Indian economic environment, industry developments, opportunities, risks, operational and financial performance, and the Company's outlook.

GLOBAL ECONOMIC OVERVIEW :

The global economy demonstrated resilience during the Financial Year 2025-26 despite persistent geopolitical tensions, evolving trade policies, inflationary pressures and volatility in energy and commodity prices. While inflation moderated across several advanced economies, central banks largely maintained a cautious monetary policy stance to support sustainable growth while ensuring price stability.

Global economic activity continued to be supported by investments in infrastructure, healthcare, clean energy, digital transformation and supply chain diversification. However, geopolitical conflicts, climate-related events, fluctuations in freight and logistics costs, and uncertainties in global financial markets continued to pose challenges to economic growth and international trade.

The industrial and healthcare sectors remained key contributors to global demand for industrial and medical gases, driven by increasing manufacturing activity, infrastructure development and expanding healthcare services. Going forward, the global economy is expected to witness moderate growth, supported by easing inflation, improving trade conditions and continued investments in industrial capacity and sustainable development. Nevertheless, geopolitical developments, commodity price movements and global financial conditions are expected to remain important factors influencing business sentiment and economic performance.

INDIAN ECONOMIC OVERVIEW :

India continued to remain one of the fastest-growing major economies during the Financial Year 2025-26, supported by robust domestic consumption, increased public capital expenditure, sustained growth in manufacturing and services, and favourable policy initiatives. Government programmes such as Make in India, the Production Linked Incentive (PLI) Schemes, PM Gati Shakti, National Infrastructure Pipeline and continued emphasis on ease of doing business have strengthened the country's industrial ecosystem and investment climate.

The expansion of infrastructure projects, manufacturing industries, pharmaceuticals, healthcare facilities and engineering sectors continued to generate healthy demand for industrial and medical gases. With strong macroeconomic fundamentals, increasing industrialisation, rapid urbanisation and sustained public and private investments, India continues to provide significant long-term growth opportunities for businesses operating in the industrial gases sector.

INDUSTRY STRUCTURE AND DEVELOPMENTS :

The industrial and medical gases industry constitutes an

integral part of the manufacturing and healthcare value chain. Industrial gases are indispensable inputs for sectors such as steel, engineering, fabrication, chemicals, pharmaceuticals, food processing, electronics, automobiles, infrastructure and energy, while medical gases continue to play a critical role in hospitals and healthcare institutions.

Demand for industrial gases remained stable during the year, supported by growth in manufacturing activities, infrastructure development and healthcare expansion. Oxygen, Nitrogen, Argon, Dissolved Acetylene, Carbon Dioxide and Medical Oxygen continued to witness consistent demand across various end-user industries. Increasing emphasis on quality, operational efficiency, safety standards and reliable supply has further strengthened the role of organised industrial gas manufacturers.

The Southern Gas Limited, with its strategically located manufacturing and operating facilities across Southern India, continues to leverage its established market presence, diversified product portfolio and customer-centric approach to cater to the evolving requirements of industrial and healthcare customers. The Company remains focused on operational excellence, safety, regulatory compliance and sustainable growth while strengthening its competitive position in its key markets.

The Southern Gas Limited, with its strategically located manufacturing and operating units across Southern India, diversified product portfolio, established customer relationships and commitment to quality, safety and timely service, is well positioned to capitalise on these opportunities. INDEPENDENT AUDITORS' REPORT

To the members of The Southern Gas Limited Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying standalone Ind AS financial statements of **The Southern Gas Limited** ("the Company"), which comprise the balance sheet as 31st March 2026, and the statement of Profit and Loss, statement of changes in equity and statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with Companies (Indian Accounting Standards) Rules, 2015, as amended, and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2026, and profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, we do not provide a separate opinion on these matters. We have determined the matters described below to be key audit matters to be communicated in our report.

Key Audit Matter	How the matter was addressed in our Audit
Revenue Recognition The Company's revenue is mainly derived from the sale of liquid gases stored in Cylinders, Cylinder Maintenance, and a minor amount from Penalty/ Demurrage for delayed return of cylinders. The Company recognizes revenue upon full execution of the terms of sale, which normally coincides with delivery. The terms set out in the Company's sales contracts relating to goods acceptance by customers are varied. Accordingly, the terms and conditions of sales contracts may affect the timing of recognition of sales to customers as each sales contract could have different terms relating to customer acceptance of the goods sold, and time frame for return of cylinders. We identified the recognition of revenue as a key audit matter because revenue is one of the key performance indicators of the Company and is, therefore, subject to an inherent risk of misstatement.	Our audit approach was a combination of test of internal controls and substantive procedures including: - Assessing the appropriateness of the Company's revenue recognition accounting policies in line with Ind AS 115 ("Revenue from Contracts with Customers") and testing thereof. - Evaluating the integrity of the general information and technology control environment and testing the operating effectiveness of key IT application controls. - Evaluating the design and implementation of Company's controls in respect of revenue recognition. - Testing the effectiveness of such controls over revenue cut off at year-end. - Testing the supporting documentation for sales transactions recorded during the period closer to the year end and subsequent to the year end, including examination of credit notes issued after the year end to determine whether revenue was recognised in the correct period. - Performing analytical procedures on current year revenue based on monthly trends and where appropriate, conducting further enquiries and testing.

Information other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's report, Business Responsibility Report, Corporate Governance and shareholder's information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is material misstatement of this other information, we are required to report the fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the financial statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity) and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also :

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in

evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2026.

1. Significant accounting policies forming part of financials**vi) Impairment of Assets**

The carrying amount of assets is reviewed at each Balance Sheet date for indicators of impairment based on internal/external factors. An asset is identified as impaired when the carrying value of the asset exceeds its recoverable value and based on such assessment, impairment loss is recognized and charged to profit and loss statement in the period in which the asset is identified as impaired. The impairment loss recognised in the prior accounting periods is reversed in the year in which there has been change in the estimate of recoverable amount.

vii) Depreciation/ Amortization

Depreciation / Amortization on Property, Plant & Equipment is provided on straight-line method based on the useful lives as specified in the Schedule II of the Companies Act, 2013 except for cylinders for which useful life has been adopted on the basis of technical evaluation by an external valuers and review by management at the year end.

The Management estimates useful lives of the cylinders as seven years based on the internal assessment and independent technical evaluation carried out by an agency. Hence the useful lives of this asset is different from the useful lives as prescribed under Schedule-II of the Companies Act, 2013.

Lease premium paid in respect of leasehold land is amortized over the period of the lease

viii) Borrowing Costs

For this purpose cost of bought out inventories comprises of the purchase cost of the items net of applicable taxes/ duty credits and the cost of bringing such items in the factory. The cost of manufactured inventories comprises of the direct cost of production plus appropriate overheads. The net realizable value of bought out inventories is their current replacement value.

xi) Financial Instruments and Investments

Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

xiv) Earnings per share

Basic earnings per share is calculated by dividing the profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. Where the effect of the time value of money is material, provisions are measured at the present value of the expected expenditure.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company, or where a present obligation exists but an outflow of resources is not probable or the amount of obligation cannot be measured reliably.

vii Risk Analysis of Defined Benefit Obligations

Given the defined benefit nature of the plan, the Employer is exposed to a wide range of risks. Each of these risks, if materialised, can increase the cost of benefits by an amount more than expected. Such an unexpected increase in costs can have an adverse impact on the financial situation of the Employer.

Each actuarial assumption made in the measurement of the DBO is a source of risk. There are additional risks which can have an adverse impact on the plan, but are not allowed for in the measurement of the DBO, such as liquidity and counterparty default risks. Some of the most significant risks are listed below

1 Discount Rate

Variations in discount rate don't affect the level of benefits under the plan. However, it is still a very significant assumption as it does affect the discount due to time value of money. A fall in discount rate will increase the present value of the obligation.

2 Salary Increases

Since the plan benefits are linked to final salary, higher than expected salary increases will increase the cost of benefits under the plan. An increase in the salary escalation assumption will increase the present value of the obligation

3 Attrition Rates

Deviations in actual attrition experience compared to the attrition assumption will change the level of benefits and therefore the cost of those benefits. A change in the attrition assumption will also affect the present value of the obligation

4 Mortality

Deviations in actual mortality experience compared to the mortality assumption will change the level of benefits and affect the cost of those benefits. A change in the mortality assumption will affect the present value of the obligation.

THE SOUTHERN GAS LIMITED

2 Notes forming part of Financials

(Rupees in lacs)

5 Regulatory Risk

Since the minimum benefits under the plan are set by law, there is risk that a change in law could require the employer to pay higher benefits, increasing the cost as well as the present value of obligation.

viii Sensitivity Analysis

	As at 31st March, 2026	As at 31st March, 2025	As at 31st March, 2026	As at 31st March, 2025

Attrition rates down -10.0% absolute	(0.88)	(0.51)	(0.24)	(0.19)

The results in the table above were calculated by varying one assumption at a time and re-calculating the present value of the obligation. All assumptions, other than the one being varied, were left unchanged from their base values.

2.37 Capital Management

The Company manages its capital to ensure that it will be able to continue as a going concern while maximising the return to stakeholders through the optimization of the debt and equity balance. The Company is not subject to any externally imposed capital requirements.

2.38 Financial Risk Management

The Company's principal financial liabilities comprise trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations and to provide guarantees to support its operations. The Company's principal financial assets include trade and other receivables, and cash and short-term deposits that derive directly from its operations.

2.38.1 Market Risk

The Company's activities does not expose it to the financial risks of changes in foreign currency exchange rates and interest rates.

2.38.2 Credit Risk Management

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. The Company has adopted a policy of only dealing with creditworthy counterparties and obtaining sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults.

2.38.3 Liquidity Risk Management

Ultimate responsibility for liquidity risk management rests with the board of directors. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments.

	As at 31st March, 2026	As at 31st March, 2025
(i) Less than 1 year		
Short Term Borrowings	-	-
Trade Payables	127.65	122.86
Other Financial Liabilities	604.85	605.93
	732.50	728.79
(ii) 1 to 5 years		
Long Term Borrowings	-	-
	-	-
(iii) > 5 years		

Note : Deposits taken from Customers against Cylinders has been shown as "current" liability since the Company does not have an unconditional right to defer settlement of the liability for atleast 12 months after the reporting period, in compliance with Schedule III and Ind AS. However, practically, the company expects not more than 4% - 5% of deposits to fall due for repayment in the short term.

Fair Value Hierarchy

Level 1 : Quoted Prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 : Inputs other than quoted prices included within Level 1 that are observable for the assets or liabilities either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 : Inputs for assets or liabilities that are not based on observable market data (unobservable inputs)
